

Conector de engate rápido série CMK

Material do corpo do conector: Poliamido PA66
 Material da alavanca de acionamento: Poliamido PA66
 Material das partes condutivas: Cobre diluído
 Material das molas de contato: Aço inoxidável AISI 301
 Tensão nominal: 450V AC
 Corrente nominal: 32A
 Capacidade de conexão: 0.08-4mm²
 Tipo de conexão elétrica: Equipotencial
 Temperatura de trabalho: -20°C a 85°C
 Comprimento de decapagem: 11mm/0.43"
